

## **VILLAGE ROUND TABLE**

We see the committee as a hands-on, street-level, working group which will help its members solve problems, whether they are laneway-related or general Village issues.

### **Background:**

During the data collection phase of the Forward Planning Committee Report in 2016, many residents expressed their concern that there was a disconnect between the various areas of The Village. They felt that there was no mechanism for the discussion of issues and for problem-solving with each other. The Village Round Table has been set up to provide a forum for such dialogue and now encompasses approximately 105 Village households.

### **Objectives:**

- To facilitate dialogue and foster a general spirit of co-operation between the various areas of The Village.
- To share experiences re past and current laneway/Village concerns.
- To be of assistance to each other on future laneway/Village issues.
- To investigate any possible economies of scale that can be achieved by joining forces with our fellow resident groups.
