Gardening Report – Mona Babin

A very special thank you goes to our anonymous volunteer who managed the gardening efforts for all residents of The Village this summer.

I hope you had a chance to notice and appreciate the fantastic job that was done with the geraniums! The Village gardens never looked so beautiful! The Elizabeth park looked curated by professional hands. The volunteer also enhanced our mailbox areas with a few pots of flowers. With that and our new little libraries, our area was definitely up a notch! NOTL town staff also added some wood chips to spruce things up!

Hopefully this great weather continues to allow us to enjoy the beautiful greenery longer. To prepare for the fall, the flowers will be pulled out and the bushes will be trimmed. NOTL town staff will clean up the gardens near the new construction.
