

Village Community Association

2025 General Meeting

Gardening Report

I'm sure we all enjoyed the wonderful splashes of colour throughout The Village this summer – mostly due to the efforts of our **"Secret Gardener"** and his helpers, **Heather Kozak, Jim Wallace, Tim Adams and a new addition, Christine Watt**. It didn't seem like much weeding was necessary this year, partly due to the heat and partly due to past efforts so there are very few weeds! The Town added new perennials to the bed at the corner of Macdonell and Norton, and these provided lots of yellow blooms for most of the summer. The tulips bulbs lay in waiting to be planted in various locations one of which will be around the new bench.

Many thanks to this group for their ongoing efforts to make our community beautiful!
