

Village Community Association

Annual General Meeting
April 15, 2026

Vice-President Report
By Carol Perrin

1. Nominating Committee

In accordance with the VCA By-laws, a Nominating Committee was formed following our General Meeting in October. The committee consists of three members: Susan Wery, Jim Filyer, and myself.

Positions up for election for the 2026/27 year:

- Vice-President (incumbent Carol Perrin)
- Treasurer (incumbent Joe Alleveto - vacating)
- Recording Officer (incumbent Susan Wery)

Nominations have been received for the incumbents in the Vice-President and Recording Officer roles. **John Watson** has been nominated for Treasurer. Nominations can still be submitted up to the time of the Annual General Meeting.

I am beyond happy to report that **Jackie Gane** has joined our Executive in the role of Membership Coordinator, replacing Judy Huntington-Mackay who is also stepping down. In accordance with our By-laws, this role is not an elected position, but rather an appointed position. Jackie has already been very hard at work with our 2026 Membership drive!

The work involved in recruiting and maintaining Loyalty Partners has moved from the Membership Coordinator, and is now being managed by **Carol Lake** who will report directly to the President, Ardeth Staz.

2. Notes of appreciation

As you can see, there has been a few changes in our Executive this past year. We would like to thank **Joe Allevato** for his many years of work as the Treasurer, and for his good humour. We will get to hear him at the microphone one last time at our 2026 AGM with his much-anticipated financial report...and his great jokes!

A great big thank you as well to **Judy Huntington-Mackay** who has stepped down from the Membership Coordinator role. We simply cannot emphasize how grateful we are for her invaluable work and dedication in establishing and promoting a sound and thriving membership base in our community!

And finally, **Jim Wallace** has been quietly behind the scenes assisting us yearly with the review of our financial records in preparation for our AGM. Thanks to Jim's annual review, we have been able to provide an independent set of eyes, ensuring our books are in good order.

3. Wildlife in The Village

There have been no reported adverse interactions with Coyotes in The Village for several years now. There continue to be occasional sightings, which are to be expected. Recently, there have been reports of racoon sightings as well. We know that our community will always play host to a multitude of wildlife. To this end, we ask that you continue to be vigilant with keeping food sources at bay, and garbage bins well secured. We have been using our Facebook page to keep residents on alert when there are sightings that seem to fall out of the norm.

It has been another very busy year for our Executive as well as all our committees who play such pivotal roles in enhancing our community and bringing us together. I would like add my thanks to all (Executive Members, committees, volunteers and all residents) for your continued engagement and support!
