The 2024/25 winter season is hopefully behind us now. From a snow management perspective this past season, with its frequent snowfalls and extremely low temperatures, this created challenging conditions with regard to "salting on demand". The Village Round Table therefore convened a special meeting in February to discuss how to effectively and responsibly manage laneway safety using a "salting on demand" protocol while simultaneously addressing laneway liability issues. The meeting was very productive and a follow-up special meeting on this topic will be held in early May.

The Village Round Table committee's regular spring meeting will then be scheduled for June, with the main agenda item being the future direction of the Village Round Table as outlined in the minutes of our August 13, 2024 meeting.
