

## Gardening Report

### VCA General Meeting

October 18, 2023

Despite having hip surgery in the spring, our Secret Gardener managed to keep the flowers blooming around The Village this summer. He met with the Town regarding additional flowers in the bed at Norton/Macdonell, but they were not able to provide additional support this year. The VCA Executive approved some additional spending to provide the lovely yellow 'splash'. His helpers Heather and Jim, and Leslie and Ron Klein, were much appreciated again – especially this year – to keep the weeds down and the water up!

We have also purchased tulips bulbs which we will plant later this fall in the Norton/Macdonell bed. Our Secret Gardener has agreed to take on the gardening job again next year – he will have the winter to recover from his second surgery! Many thanks to him for making our community beautiful.
