Phil Loforti

Jennifer Siverns

Doug Widdicombe

With winter 2023/24 hopefully now in the rearview mirror, we can report that the snow management for 5 of the self-administered laneways west of Garrison Village Drive was once again efficiently planned and well executed.

Bell Fibe installation in those areas which had previously been without access to Fibe finally got underway in November/December. This followed a lengthy two-year delay by Bell due to at least 2 contractor changes, which eventually led to better installation outcomes for some difficult to access areas. Along the way, the VRT was involved in numerous discussions and follow-ups with Bell, and in setting up pre-installation meetings between representatives of the self-administered

laneways and Bell and its contractors in order to address and resolve concerns.

The Village Round Table is only as successful as the willingness of residents to participate in the conversation. In order for this channel of communication to be effective, please keep in touch with your committee member – or just email me at: jennifersiverns@hotmail.com

We anticipate our next Village Round Table committee meeting to be held in May.

Mike Siverns, Chair
